His Honour the Honourable the Lieutenant Governor entered the Assembly and took his seat on the Throne.

His Honour then read the following Speech from the Throne:

SPEECH FROM THE THRONE

MR. SPEAKER AND MEMBERS OF THE LEGISLATIVE ASSEMBLY:

It is with much pleasure that I welcome you to the Third Session of the Tenth Legislature of the Province of Alberta.

Since your last Session, the freedom loving peoples of the world have witnessed the successful consummation of their six years of struggle against the ruthless forces of totalitarian aggression. In common with all members of the British Commonwealth, and of our Allies, we record our profound gratitude and thanks to Almighty God for prospering our arms and crowning our efforts with victory.

My Government joins with the people of the Province in expressing its gratitude for the heroic part played by so many of our Alberta citizens in the Armed Forces and for the innumerable sacrifices made abroad and at home for the cause of freedom.

My Government tenders its sincerest sympathy to all who have been bereaved through the loss of loved ones in the service of their country. Likewise we join in paying grateful tribute to all those who have suffered wounds and disabilities in the faithful discharge of their duty.

With the military conflict successfully concluded, we have now entered the post-war era with its numerous problems and its stern demands. My Government is resolved to do everything

in its power to ensure a successful transition from wartime to peacetime conditions, and to so order the Province's public affairs that all of our citizens will be afforded an opportunity to obtain a satisfactory measure of post-war security.

Turning our attention to prevailing conditions in our basic industry, Agriculture, unfavourable weather conditions during the past year resulted in a marked decline in the production of grain crops. A serious reduction in swine also is recorded but the production of all other types of live stock has increased considerably. Dairy products, poultry products and other farm commodities have remained constant throughout the year.

In keeping with the importance of our basic industry, my Government, under legislation passed at the last Regular Session, has formed Agricultural Boards in sixteen Municipalities and also has established a Board of Agricultural Education to deal with problems affecting this important phase of vocational training.

A progressive post-war agricultural programme has been prepared under which my Government proposes to extend the services rendered by District Agriculturists and District Home Economists.

Further training will be provided for our young people in agricultural education, including special training programmes provided jointly by the Department of Agriculture and the Dominion Department of Labour under The Canadian Vocational Training Co-ordination Act.

Changes will be proposed in live stock policies for the purpose of progressively improving the quality of live stock and live stock products. Features which have proven beneficial will be maintained and expanded.

Pursuant to a resolution of the First Session of this Legislature, a report from a Special Committee appointed by the Lieutenant Governor in Council to consider the practicability of a co-operative hail insurance scheme will be submitted for your consideration.

During the coming year particular emphasis will be placed on the development of irrigation projects. Negotiations are now under way with the Dominion Government to ensure the orderly post-war development of water resources as rapidly as circumstances will permit. Certain projects already have been approved and work commenced.

In the field of education, a number of important amendments to The School Act will be submitted for your consideration.

Academic and vocational courses for returned veterans will receive special consideration during the coming year. This programme will be carried out in co-operation with the Dominion Government. A general equation of credits for courses and experience in the Armed Forces is being instituted to assist Service men and women to achieve high school matriculation standing.

Efforts will be continued to obtain Federal financial assistance for capital expenditures for educational purposes, as a matter of national importance.

The Provincial Department of Health has prepared a comprehensive post-war programme designed to improve the health conditions of our people. Emphasis will be placed on full-time preventive health services. As soon as the staff required for this purpose is available, additional full-time district health units will be organized.

A Training Centre for the purpose of providing facilities for field training of physicians, public health nurses, and sanitary inspectors will be established.

The extent to which complete post-war health services can be provided, will depend upon the measure of financial aid given by the Dominion Government for this purpose. Legislation will be introduced during the Session empowering my Government to enter into agreements with the Dominion Government for the purpose of obtaining Federal aid for health services.

Consideration will be given to assisting Municipalities in providing satisfactory homes for the detention of children found guilty of committing offences against the law.

My Government proposes to assist the Canadian National Institute for the Blind in establishing suitable accommodation in Edmonton and Calgary for those thus afflicted.

The Veterans' Welfare and Advisory Commission will continue its efforts on behalf of discharged Service personnel. Every possible assistance will be afforded to veterans, to facilitate their speedy re-establishment in civilian occupations.

My Government views with deep concern the acute shortage of satisfactory homes and the numerous hardships which this condition is causing returning war veterans and their families. Efforts will be continued to assist in every practicable way in the solution of this serious problem.

In the field of Public Works, my Government will submit for your consideration a comprehensive five-year programme of highway construction and improvement, designed to overcome the curtailments and restrictions necessitated by wartime conditions. Particular attention will be given to those sections of provincial highways which suffered more severely due to heavy military and commercial traffic during the war years. This programme, when completed, will provide our Province with an extensive system of well constructed hard surfaced and all-weather highways, adequate to serve the post-war requirements.

The construction of the Grimshaw Great Slave Lake highway, financed jointly by the Dominion and the Provincial Governments, will be prosecuted with the greatest despatch in order to ensure adequate transportation facilities into the rich mineral areas of the north.

In the sphere of Trade and Industry, legislation will be introduced to provide for the establishment of an Alberta Industrial Development Corporation. This provision will be part of the

comprehensive post-war programme, designed to encourage and assist the industrial development of our Province in the best interests of our own citizens.

Legislation will be introduced to increase the scope of the Alberta Power Commission, to the end that steps may be taken to progressively extend rural electrification throughout those areas of the Province where the transmission of electrical energy is economically feasible.

To encourage post-war tourist trade, my Government proposes to establish standard requirements, designed to improve the accommodation provided for tourists, particularly in auto camps situated within the Province.

During the Session, legislation will be introduced to consolidate the present enactments governing Co-operatives and to stabilize and encourage Co-operative Associations.

My Government recognizes the importance of encouraging an enrichment of the cultural life of the Province, and legislation designed for that purpose will be submitted for your consideration.

The work of the Research Council of Alberta will be expanded during the coming year, and its activities will include a study of the commercial utilization of Alberta poplar. Research work will be continued into the use of natural gas for the making of gasoline and for the production of chemicals.

In the sphere of fiscal policy, my Government is pleased to report that the legislation passed at the last Special Session of this Assembly, providing for the complete refunding of the Provincial Debt, has been successfully implemented on fair and equitable terms. Under the arrangement consummated, Alberta becomes the first Canadian Province to place its Public Debt on a serialized basis, with annual payments of principal and interest providing for the complete retirement of the debt in 35 years. The estimates for the next fiscal year will reflect the saving in debt service charges resulting from this operation.

The Provincial Treasury Branch programme has enjoyed a very successful year's operations, and has netted a substantial surplus after all capital and operating expenses have been met. Provision will be made for the further expansion of the Treasury Branch programme during the ensuing year.

In obedience to the mandate it has repeatedly received from the electorate, my Government will continue to pursue vigorously its policy, and programme of economic and monetary reform, in keeping with the principles and philosophy of Social Credit. To this end legislation designed to establish by law, certain fundamental rights and responsibilities of citizenship, will be submitted for your consideration. This legislation will embody measures designed to ensure all citizens an opportunity to enjoy a full measure of democratic freedom, and to attain a reasonable standard of social and economic security. To ascertain the constitutional validity of such legislation, it is proposed to refer the same to the Courts before it is proclaimed law.

FEBRUARY 14

Pursuant to a resolution of the First Session of the present Legislature, a report from the Special Committee to consider amendments to The Alberta Election Act will be submitted for your consideration.

The reports of the various Departments of Government will be tabled.

Public Accounts for the past fiscal year, together with the Estimates for the coming year, will be presented for your careful consideration.

I leave you now to the discharge of your legislative duties, with full confidence that your deliberations under Divine guidance, will be in the best interests of each and all of our citizens.

Whereas the Dominion Government's wartime policy has been to maintain retail price ceilings regardless of production costs by the use of subsidies where necessary; and

Mr. Roper asked the Government the following questions, of which he had given notice, and which were answered by the Hon. Mr. Ansley:

How many persons other than holders of ordinary certificates of qualification (1st, 2nd, Elementary and Intermediate, High School) are in charge of class rooms in this Province as:

(a) Correspondence supervisors?

A. 275 Correspondence Supervisors as at December 31st.

(b) Holders of War Emergency certificates?

A. 417 War Emergency Certificates were issued in 1945.

It can be assumed that all the holders are now in charge of schools.

(c) Holders of Letters of Authority?

A. 169 Letters of Authority for the school year 1945-46 have been issued. Most of the holders have certificates from other Provinces.

(d) Holders of Revived Certificates?

A. Holders of Revived Certificates are not listed separately. Revived certificates are those which have expired owing to non-completion of academic or normal school requirements. The number is very small, and the revival temporary. On the other hand, there are many teachers in charge of schools whose certificates were said to have lapsed because they had been out of the profession for five years or more.

Mr. Ward asked the Government the following question, of which he had given notice, and which was answered by the Hon. Mr. Fallow:

Q. What special consideration does the Government give to returning servicemen applying for a telephone and who were subscribers previous to their joining the service?

A. The instructions of the Government are that all such cases must be given preferred attention.

Moved by Mr. James, seconded by Mr. Ure:

Whereas the continued neglect to make adequate provision for the older pioneer citizens of Canada constitutes a national disgrace; and

Whereas the Dominion's proposals submitted to the recent Dominion-Provincial Reconstruction Conference, while conceding to some extent the fact that persons of 65 upwards are practically unemployable and in any event have earned the right to retirement, denies the principle of old age pensions by imposing a degrading means test in regard to such pensions between 65 and 70; and

Whereas the said proposals likewise fail to recognize either that the minimum pension required to provide the basic necessities of life and small comforts would be \$50 a month, or that the care of the nation's older pioneer citizens is essentially a Federal responsibility:

Therefore, be it Resolved, that this Legislative Assembly of Alberta strongly urge the Federal Government to introduce legislation at the forthcoming session of Parliament providing for the payment of old age pensions of \$50 a month at age 65 on a non-contributory basis and free from the degradation of any means test; and

Be it further Resolved that in the opinion of this Legislative Assembly the age limit for old age pensions should be reduced to 60 years as soon as possible; and

Be it finally Resolved, that the Federal Government be urged to make full use of the nation's credit so that such old age pensions can be financed without recourse to further tax or debt burdens on the nation.

A debate followed.

Mr. Liesemer moved as an amendment, seconded by Mr. Roper:

That the motion be amended as follows:

After the words "essentially a Federal responsibility" where they appear in the tenth line there be added; "and

"Whereas the amount of Old Age Pension and Mothers' Allowance will provide only the bare necessities of life; and

"Whereas this Legislative Assembly in the Session of 1945 unanimously urged the Government of the Province of Alberta to give consideration to the payment of all medical, optical, hospital and funeral expenses of Old Age Pensioners and recipients of Mothers' Allowances";

That the word "finally" in the 17th line be deleted and the word "further" be substituted therefor; and

After the words "burdens on the nation" in the 19th line there be added; "and

"Be it finally Resolved, That this Assembly urge most strongly that the Government of Alberta this Session make provision in its budget for funds sufficient to provide payment for all medical, dental, optical, hospital, and funeral services to all recipients of Old Age Pensions and Mothers' Allowances."

Mr. Speaker declared the amendment out of Order.

The debate on the motion continued.

The motion being proposed, Mr. Speaker declared the motion carried unanimously.

Moved by Mr. Liesemer, seconded by Mr. Roper:

Whereas there is a critical and dangerous shortage of food for the peoples of the world; and

Whereas Western Canada is one of the greatest producers of food surpluses in the world; and

Whereas the present production of food in the three prairie provinces is limited to amounts less than maximum productivity by Dominion-Provincial agreement;

Be it Resolved, that the Government of the Province of Alberta in conjunction with the Governments of the Provinces of Saskatchewan and Manitoba, request the Dominion Government to reconvene immediately the Conference of Dominion and Provinces which made the agreement, with a view to increasing the acreage of all grains and to adopting a policy which will increase production of meat and other animal products in order to make our maximum contribution to the urgent food needs of the peoples of the world, and to bring a greater measure of prosperity to the rural and urban peoples of the prairie provinces.

A debate followed.

The Hon. Mr. MacMillan moved as an amendment, seconded by Mr. Sayers:

That the resolution be amended by deleting all the words after the word "and" after the second Whereas in the preamble thereof and substituting the following:

"Whereas Agricultural production is primarily the responsibility of the Province,

Moved by Mr. Halmrast, seconded by Mr. Cornish:

Whereas there is a great surplus of wool stored in the world today because of war time restrictions and excessive use of shoddy materials in the manufacture of woollen goods, and that the existing situation may prove a serious handicap to the further production of wool in Canada and particularly in Alberta where the greater percentage of wool is grown; and

Whereas sheepmen feel that unless something is done to reduce those stock piles so as to insure a further substantial market for their wool, they may have to enter other fields of husbandry;

Therefore, be it Resolved, that the Dominion Government be requested to enact legislation that demands a greater percentage of virgin wool and less shoddy wool in the manufacture of woollen goods, including imported woollens, and that such goods bear a label indicating the percentage of virgin wool used, as a protection to the consumer.

Moved by Mr. Gilliland, seconded by Mr. McLaughlin:

Whereas the farmers of Western Canada following ten years of severe depression made a supreme effort during the war years to maintain the food supply of the Allies, thus contributing materially to the final victory; and

Whereas the price received for wheat by farmers of Western Canada was considerably lower than the price received by the farmers of the United States, although all were engaged in a common war effort; and

Whereas as a result of the handicap of the severe pre-war depression, together with restrictive quotas, ceiling prices, lack of machinery and high taxation, many farmers have been unable to make any real recovery and are not yet on a really sound economic basis and will therefore be unable to maintain the continued high rate of production necessary to supply immediate peace time requirements, both at home and abroad;

Therefore, be it Resolved, that in the opinion of this Assembly, the Dominion Government should maintain a floor price on wheat of \$1.25 per bushel, basis No. 1, Fort William, for the next five years (and raised in proportion to increased cost of production) in order to enable Western Agriculture to meet competitive wages in the labour market to make the greatest possible contribution to the food requirements of Britain and Europe and to maintain its contribution to the general prosperity of Canada as a whole.

Moved by Mr. Liesemer, seconded by Mr. Roper:

Whereas, there are indications that extensive activity in the extraction of gasoline and other products from natural gas may take place in Alberta; and

Whereas, many Alberta communities and a large part of the population of the Province is now using natural gas for domestic and industrial fuel;

Be it Resolved, that this Legislature is of the opinion that in order to avoid depletion of fields from which natural gas is now being obtained for fuel, and to encourage the extension of this benefit to an increasing number of communities, the use of natural gas for other purposes should be confined to areas other than those from which domestic and industrial fuel is now being obtained or which may be needed shortly to similarly service other Alberta communities.

A debate followed.

Hon. Mr. Tanner moved an amendment, seconded by Mr. Fee:

That the Motion be amended by striking out all the words after the word "fuel" in the second "Whereas," and inserting the following:

Whereas the Government has entered into agreements for the purpose of reserving certain gas areas to insure adequate supplies of natural gas for domestic and industrial fuel within certain Communities;

Therefore, Be it Resolved, that this Legislature is of the opinion that in order to avoid depletion of fields from which natural gas is now being obtained for fuel, and to encourage the extension of this benefit to other Communities, the Government, in the interests of our Alberta citizens, should continue its policy of reserving in the gas areas at present supplying natural gas to our Alberta Communities, sufficient acreage to establish adequate reserves.

Moved by Mrs. Wilkinson, seconded by Mr. Prowse:

Whereas the desperate housing crisis is causing widespread hardship and suffering, and is striking at the very roots of family life, our war veterans having to bear the full brunt of these conditions; and

Whereas the housing crisis is essentially a national emergency, directly resulting from national policies, and can be dealt with adequately only by the Federal Government which alone has access to the financial resources for promoting an effective nation-wide home building programme; and

Whereas on account of inflated building costs, the present agencies for financing home construction do not provide the opportunity for the average wage earner to secure a home on terms which are within his means;

Therefore, be it Resolved, that the Federal Government be urged to inaugurate a substantially subsidized national home building programme under which the inflated costs of building will be reduced to the consumer, so that the majority of wage

earners will have the choice of either buying a home by making nominal initial and low monthly payments or of renting homes at low rentals, in both instances within their means;

And be it Further Resolved, that the Government of Alberta continue to co-operate fully with the Federal authorities in any action it takes to this end and to supplement any such Federal action by every possible means.

MARCH 5

Moved by Mr. Liesemer, seconded by Mr. Roper:

Whereas crop and monetary losses to Alberta farmers from the weed menace have reached alarming proportions; and

Whereas the Provincial Department of Agriculture is the only central body that, by the expenditure of relatively small sums of money, can save the Alberta farmers this huge annual loss due to weeds;

Therefore, be it Resolved, that the Government of Alberta be urged to make provision for the Department of Agriculture to undertake a program of intensive research and experimental work designed to develop more effective and cheaper ways and means of controlling and eradicating weeds; and

Be it Further Resolved, that the Government of Alberta be urged to pay a larger share of the cost of the work of the Agricultural Service Boards and Field Supervision.

Hon. Mr. Maynard on a point of Order said in his opinion the Motion was out of Order as it appeared to be a Money Resolution and could not be introduced by a Private Member.

Mr. Speaker ruled the Resolution was, in his opinion, Mandatory. It involves an expenditure of money and can not be moved by a Private Member as it is not an abstract Resolution. He ruled the point was well taken. The Resolution is out of Order. (Beauchesne's, page 170, 3rd Edition, No. 444.)

The Committee on Municipal Law has had under consideration the undermentioned Bill and begs to report the same with certain amendments.

Ordered, That the report be received and concurred in.

The Order of the Day being read for the questions standing in the name of Mr. Roper:

Ordered, That the said questions stand as an Order of the Assembly for a Return showing,—

1. How many employees of the Government are being paid at rate lower than that which must be paid by private employers under The Minimum Wage Act?
2. How many employees of the Government are working more than eight hours in the day or forty-eight in the week?

The Order of the Day being read for the question standing in the name of Mr. Roper:

Ordered, That the said question stand as an Order of the Assembly for a Return showing,—

What was the average Old Age Pension paid in Alberta as at January 31st, 1946, exclusive of the \$5.00 bonus?

Moved by Mr. Cornish, seconded by Mr. Ure:

Whereas a permanent system of agriculture can only be brought about by a successful live stock industry; and

Whereas the production of live stock has (with the exception of recent years) been carried on under very unsatisfactory economic conditions, which has forced the agricultural producers to concentrate chiefly on the growing of grain; and

Whereas this has brought about a rapid decline in the fertility of our soils, together with a very serious problem of weed control and soil erosion;

Therefore be it Resolved that this Legislative Assembly request the Federal Government to immediately outline a comprehensive long range programme for the live stock industry of Western Canada, with prices set at a sufficiently high level to enable the producers of live stock and live stock products to obtain a reasonable profit; and

Further be it Resolved that the meat board be re-organized in order to provide adequate producer representation and to assume full responsibility for the marketing of all live stock and live stock products.

A debate followed.

The motion being proposed, Mr. Speaker declared the motion carried unanimously.

Moved by Mr. Liesemer, seconded by Mr. Roper:

Be it resolved that the Government of Alberta insure, in any transfer of Income Tax power to the Federal Government that may be agreed to, that positive assurances be written into such agreement guaranteeing in future,—

- (a) that the income of a farmer, for income tax purposes be assessed on the basis of a five-year moving average;
- (b) that breeding herds be recognized as a capital asset; and that in the case of proceeds from dispersal sales over and above this capital asset, the farmer be permitted to average the income from such sales over a period of three years for income tax purposes;
- (c) that allowance be made for the labor of farmers' wives, sons and daughters in connection with production on the farm;
- (d) that payments of debts on the home half section contracted before 1940 be allowed as deductions for income tax purposes;
- (e) that farmers be not required to accept the responsibility of collecting income tax from their hired help;
- (f) that the exemption for single persons be raised to \$1,000.00 and that for married persons to \$2,000.00;
- (g) that the Dominion Government provide a board of arbitration whereby taxpayers may have a simple and inexpensive means of appealing decisions of income tax authorities;

Further be it Resolved that, in the event of both governments remaining in the Income Tax fields, the Government of Alberta incorporate the above principles into its Income Tax legislation, and the Federal Government be requested also to act in accordance with these principles.

A debate followed.

Mr. Tomyn moved the adjournment of the debate which was agreed to.

Moved by Mr. Liesemer, seconded by Mr. Roper:

Whereas the amount of Old Age Pension and Mothers' Allowance will provide only for the bare necessities of life; and

Whereas this Legislative Assembly in the Session of 1945 unanimously urged the Government of the Province of Alberta to give consideration to the payment of all medical, dental, optical, hospital and funeral expenses of Old Age Pensioners and recipients of Mothers' Allowances;

Therefore be it Resolved that this Assembly strongly recommend that the Government of Alberta make provision this Fiscal Year in its Budget for funds sufficient to provide payment for all medical, dental, optical, hospital and funeral services to all recipients of Old Age Pensions and Mothers' Allowances.

Mr. Speaker ruled the Motion out of Order and quoted the following reasons:

- (a) The Estimates for the fiscal year ending March 31, 1947, have been tabled.
- (b) A Motion to go into Committee of Supply to study the Estimates has been moved. Since the Estimates belong to the Assembly and not to the Government now that they are tabled, and that nothing can be brought on in that Committee of which notice has not been given in detail, by the Estimates laid before the House.

Therefore, in his opinion, the Resolution was out of Order. (Beauchesne's 3rd Edition, page 175, No. 470.)

Ordered, That the Assembly revert to Order of Business: Committee of Supply.

The Order of the Day being read for continued debate on the following motion:

Moved by the Hon. Mr. Manning, seconded by the Hon. Mr. Fallow:

That Mr. Speaker do now leave the chair and that the Assembly do immediately resolve itself into Committee of Supply to consider of the Supply to be granted to His Majesty.

The debate continued.

Dr. Robinson moved the adjournment of the debate which was agreed to.

Moved by the Hon. Mr. Manning, seconded by Mr. Prowse:

Whereas the total financial cost to Canada of the second world war up to the end of the current fiscal year amounted to the fabulous sum of over 18 billions of dollars which money was obtained by means of national taxation, victory loans and the expansion of the national credit, and which money was used for the destruction of life and property on an unprecedented scale to the end that the present and future generations of Canadians and of other peace loving nations might be afforded an opportunity to enjoy a peaceful, secure and abundant national life; and

Whereas Dominion Government officials have stated repeatedly during the war that Canada's contribution to the destruction of the forces of oppression and tyranny would be limited, not by the financial resources of the country, but only by the material and manpower resources available; and

Whereas a nation which has demonstrated its ability to provide billions for war and destruction is equally able to provide the money necessary to finance a national program to post-war reconstruction adequate to ensure the satisfactory rehabilitation of those discharged from the armed forces and to enable the citizens of Canada generally to obtain satisfactory homes, maximum employment, and an opportunity to become self-supporting Canadians with a standard of living and measure of security compatible with Canada's vastly expanded productive capacity;

Therefore be it Resolved that this Legislative Assembly do respectfully request the Dominion Government to initiate without delay a nationally financed Dominion-wide five year post-war rehabilitation program on a scale sufficient to ensure the satisfactory rehabilitatioin of the men and women discharged from the armed services; and as an integral part of such program the Dominion Government should make available to each provincial government the sum of not less than twenty dollars per capita per year for the next five years to enable the Provinces to participate effectively in such a program and to contribute to its success by undertaknig necessary provincial post-war development projects;

Be it further Resolved that in order to eliminate the necessity of taxing the Canadian people to pay interest on the money required to finance such a five year post-war rehabilitation program the Dominion Government should obtain such money by expanding the national credit through the medium of the Bank of Canada while at the same time maintaining effective safeguards against any inflationary rise in consumer prices;

Be it Finally Resolved that if the Dominion Government is not prepared to expand the national credit through the Bank of Canada to obtain the money necessary for this purpose, then this Legislative Assembly requests the Dominion Government to launch an annual National Reconstruction Victory Loan to obtain the money necessary for winning the Peace in the same manner and by the same method as that used to obtain the billions expended for the purposes of war and destruction

A debate followed.

Whereas in the prosecution of the War, millions of dollars of valuable property located in Canada and foreign countries, such as real estate, buildings, clothing, furniture, equipment, plumbing, hardware, trucks, cars, hospital equipment, engines, etc., commonly known as "War Assets," were purchased by the Military Authorities from public funds obtained through taxes and victory loans; and

Whereas a Select Committee known as a "Special Committee on War Expenditures and Economies" was appointed November 6th, 1945, to examine into the expenditures of the various government departments directly concerned with the war and the disposal of surplus war assets; and

Whereas there is sound reason to believe that there has been a tremendous amount of extremely valuable war assets uselessly and wastefully destroyed which could have been put to very good use by public bodies, veterans and civilians throughout Canada;

Therefore be it Resolved that this Legislative Assembly urge upon each individual member of the Dominion Parliament to take a personal interest in the activities of the Departments of the Dominion Government and Crown Corporations responsible for the disposal of any property commonly known as war assets with a view to demanding,—

- (a) a complete and thorough public investigation into the destruction of any war assets by the "Special Committee on War Expenditures and Economies";
- (b) an end to any further destruction of valuable war assets;
- (c) the removal of useless red tape preventing the efficient disposal of war assets no longer required by the Dominion Government.

The motion being proposed, Mr. Speaker declared the motion carried unanimously.

Moved by Mr. James, seconded by Mr. Ward:

Whereas a brief in respect to pensions for the blind was submitted to the Special Parliamentary Committee on Social Security by representatives of the blind and the Canadian National Institute for the Blind in June, 1943; and

Whereas the six points listed below and contained in the brief have been endorsed by organizations of and for the blind across Canada:

1. That a special act for the blind and the prevention of blindness is desirable.
2. That pension should be applied to all blind persons after 21 years of age.
3. That pension should be uniform, adequate and tied to the cost of living.
4. That permissible earnings or income limits should be raised from the present level to the minimum income tax level, i.e., \$660.00 single and \$1,200.00 for married blind pensioners.
5. That all blind persons possessing visual acuity of 3/60 Snellen's Chart, or less, shall be granted a guiding and special assistance allowance of \$10.00 per month.
6. That for persons who have entered Canada with good vision and who through a serious illness or non-compensable accident have lost their sight, resident qualifications be reduced to five years; and

Whereas the Boards of Management of the C.N.I.B. in Alberta, and the Alberta Council of the Blind have requested this Legislative Assembly to support and endorse all these points;

Therefore be it Resolved that this Legislative Assembly endorse these points and urge upon the Dominion Government for their enactment during the present session of the Dominion Parliament.
